

RenewSys Expands Its Products to PID Resistant EVA Encapsulant – Receives UL Certificate:

RenewSys, Bangalore, India, the quality manufacturer of EVA Encapsulant 'CONSERV' and Backsheets 'PRESERV,' expands its product range to include PID resistant Encapsulant. The product has been tested by UL as per IEC draft test protocol and found to be excellent in performance giving maximum power loss within 2%. The EVA encapsulant range of the company now includes Fast Cure, Ultra-fast Cure and PID resistant EVA Encapsulants covering most of the PV applications. With this development, company expands its reach to global market expecting good business growth.

With a commitment to provide innovative & technology driven solutions, **RenewSys** has invested significantly in setting up a R&D centre at its Bengaluru facility. This enables RenewSys partner with its clients to create customized solutions for mutual benefit and contribute in taking the industry forward.
