

RenewSys Commissions 140 KW Solar Power Plant for Captive Consumption

Sub-header- Leading from the front

RenewSys, Bengaluru, India, the quality manufacturer of EVA Encapsulant 'CONSERV' and Backsheets 'PRESERV' has commissioned its two solar power plants totalling 140 KW capacities. First 100KW plant installed by EMMVEE Solar is partly ground mounted and partly Roof Top installation. The second plant of 40KW installed by Autonic Energy Systems **is a full Roof Top solution**. Both the plants are generating power as expected for last 6 months. The power is being used for captive purposes.

These installations are part of the demo projects of RenewSys to show the commitment of the company in the renewable energy sector. All the modules used in these projects are made using RenewSys EVA Encapsulant 'CONSERV' and Backsheet 'PRESERV' to demonstrate the performance and reliability these products.
