

RenewSys Signs MoU to Install Solar Power Plant for Captive Consumption:

RenewSys, the quality manufacturer of EVA Encapsulant and Backsheets based at Bengaluru, India has signed MoU with EMMVEE Solar to install 100 KW solar power plant. Also, its associate company Acuprint Systems has signed MoU with Autonic Energy Systems to install 40 KW solar power plant. The 100 KW power plant of RenewSys shall be partially roof top and partial ground mounted whilst 40 KW system Acuprint shall be completely roof top installation. Both the plants are aimed for captive usage.

It has also been agreed that both the EPCs companies shall use RenewSys EVA Encapsulant ('CONSERV') and Backsheet ('PRESERV') to manufacture the solar modules for these installations. In addition to having taken one more step by the Group towards the renewable energy, through these installations, RenewSys wants to demonstrate and show case the performance, durability and reliability of its EVA Encapsulant and Backsheet in the actual field. Both the systems are expected to be operational within 3 months.
