

RenewSys appoints Nandkumar Pai as CEO - PV Cells and Modules

- ***Nandkumar Pai brings renewed focus and energy to the PV cells and modules division in this new role***
- ***RenewSys is the 1st integrated manufacturer of solar PV Modules and its key components – PV Cells, Encapsulants and Backsheets***

Mumbai, March 2020: RenewSys - the 1st integrated manufacturer of Solar PV Modules and its key components, Encapsulants, Backsheets and Solar PV Cells - announces the promotion of Mr. Nandkumar Pai as CEO – PV Cells & Modules with effect from April 1, 2020.

A power industry veteran with nearly 30 years of experience in diverse sectors like Oil and Gas, Engineering, Manufacturing and Renewables, he has been leading Sales and Marketing at RenewSys.

Mr. Pai is a Mechanical Engineer and has completed international management development programmes from IMD, Lausanne (Switzerland); Cranfield, UK; Hanken, Helsinki (Finland).

A hands-on leader, he works closely with the sales, marketing, production, and technical teams at RenewSys to lend balance and address the challenges that crop up in a rapidly changing solar industry.

Prior to RenewSys, he has worked with Wärtsilä India Pvt. Ltd. and GMMCO, a C.K. Birla company, in varied leadership roles including Managing Director, Chief Operating Officer. He has also published technical and industry papers.

As a company with a swiftly expanding global footprint, RenewSys will continue to be led by the Global CEO & Managing Director, Mr. Avinash Hiranandani, who will sharpen his focus on strengthening

international business. This is in keeping with a strategy to make innovation led, quality PV products available to the growing global markets.

“The adoption of Solar PV is growing at an unprecedented rate, giving rise to new opportunities and challenges. RenewSys is poised to support this growth trajectory and to better serve our expanding customer base in India and beyond with this move,” said Mr. Avinash Hiranandani.

About Us:

RenewSys is the 1st integrated manufacturer of Solar PV Modules (750 MW) and its key components – Encapsulants (1.4 GW), Backsheets (3 GW) Solar PV Cells (130 MW). RenewSys has offices in India, Mauritius, Nigeria, South Africa, Singapore, UAE, UK, China and representative offices in USA, Mexico and countries across Europe; our distributor network is evolving as well.

It is the ‘Renewable Energy’ arm of the Enpee Group, an international conglomerate with nearly 60 years of manufacturing experience in diversified businesses. The Group also has a presence in Metal and Flexible Packaging, Soaps and Chemicals, Industrial Flooring, Cement & Roofing sheets, Electrical Cables, etc. Read more at www.enpee.com

Home to **India’s 1st** 5BB and 6BB PV cells, only Bi-Facial, Glass- to -Transparent Backsheet Module, High efficiency - DESERV Galactic and DESERV Extreme modules and specially designed flexible, lightweight modules; the RenewSys Hyderabad Facility is a hub for cutting edge R&D, design thinking and innovation.

The RenewSys Bengaluru plant houses a state-of-the-art reliability testing lab and world-class European machinery that has produced and supplied over 7 GW of Encapsulant and Backsheet worldwide. One of our highest grossing export products is POE Encapsulant, that combines the benefits of existing POE and TPO Encapsulants for an unmatched performance in both Glass to Glass and Glass to Backsheet PV modules. This product is India’s only UL certified POE and was recognised as a Finalist at the InterSolar Europe Awards 2018.
